GEHU/04M/9.1.3

Graphic Era

Established by an Act of the State Legislature of Uttarakhand (Adhiniyam Sankhya 12 of 2011)
University under section 2(f) of UGC Act, 1956

Term Evaluation Theory (Even) Semester Regular Examination February 2026

Roll no..............................

Name of the Course: BBA
Semester: II
Name of the Paper: Business Statistics
Paper Code: BBA 203
Time: 1.5 hour **Maximum Marks: 50**

Note:
(i) Answer all the questions by choosing any one of the sub-questions
(ii) Each question carries 10 marks.

Q1. (10 Marks)

a. What do you mean by Business Statistics? Explain the characteristics of it (CO1)

OR

B. Following data relate the marks of 50 students out of 100 marks. Construct a frequency distribution with class-intervals as 10 taking first interval as 10-20 and so on (CO3)

70	59	45	63	65	55	49	15	20	45
25	42	65	54	42	35	75	48	52	46
55	63	60	53	39	64	52	42	40	45
36	57	45	64	41	30	35	26	53	18
31	39	47	33	82	58	61	50	55	20

Q2. (10 Marks)

a. Explain the different methods of presenting statistical data and provide a suitable example for each to demonstrate how they clarify information (CO2)

OR

b. Calculate Mean, Median and Mode. (CO4)

X	0-10	10-20	20-30	30-40	40-50	50-60
F	3	7	10	15	8	4

Q3. (10 Marks)

a. A company wants to report "average salary" of employees. Apply different measures of central tendency (Mean/Median/Mode) and choose the most suitable one. State the essential requisites of a good measure of central tendency that make your chosen measure appropriate

. (C03)

OR

B. From the following frequency distribution, prepare the less than and more than cumulative frequency curve (ogive curve). Also determine Median from it. (CO3)

Term Evaluation Theory (Even) Semester Regular Examination February 2026

Class Interval	No of Students
10-20	5
20-30	11
30-40	22
40-50	27
50-60	13
60-70	20

Q4. (10 Marks)

A. What do you mean by Dispersion? Explain the various measure of dispersion with example. (CO1)

OR

B. From the following data calculate Quartile deviation, Inter Quartile and Coefficient of Quartile deviation with proper calculation. (CO4)

Marks	No of Students
10-20	12
20-30	18
30-40	14
40-50	19
50-60	11
60-70	20
70-80	24

Q5. (10 Marks)

A. Calculate the Standard deviation and coefficient of variance from the following data (C04)

Marks	No of Students
10	2
20	11
30	9
40	10
50	7
60	5
70	3

OR

B. Define Kurtosis and Skewness. Mention their types and write one suitable example for each. (CO1)
