

MBA (Trimester-II) Regular Examination February 2026

Roll no.....

**MBA (Trimester-II)
Human Resource Management**

MBA 201

Time: 3 hours

Maximum Marks: 100

Note:

- (i) This question paper contains two Sections-Section A and B
- (ii) Both Sections are compulsory
- (iii) Answer any two sub questions from a, b & c in each main question of Section A. Each sub question carries 10 marks.
- (iv) Section B, consisting of a case study, is compulsory. It is of 40 Marks.

Section A

Q1.

(2X10=20 Marks)

- a. Explain the evolution of HRM from administrative personnel management to strategic HRM. Also discuss how HR contributes to business competitiveness. CO1, CO2
- b. "Employee experience (EX) has become the new HR battleground." Discuss this statement and evaluate two EX initiatives that can improve engagement in hybrid workplaces. CO2
- c. AI and automation are transforming HR. Analyze two benefits and two risks of using AI in HR decision-making (e.g., recruitment, appraisal). CO3

Q2.

(2X10=20 Marks)

- a. A company is facing high attrition and skill shortage. Apply HR Planning steps to propose a forecasting and succession planning approach for the next 12 months. CO3
- b. Compare internal vs external recruitment sources for a mid-sized IT services firm. Which one is better for critical roles and why? CO4
- c. Explain promotion and transfer policies. Design a fair transfer policy for a multi-location organization to reduce employee resistance. CO1, CO6

Q3.

(2X10=20 Marks)

- a. Differentiate between training and development with suitable organizational examples. A manufacturing firm reports that training is not improving productivity. Suggest a training approach using two on-the-job and two off-the-job methods, and explain how each method supports skill transfer at work. CO3, CO6
- b. A firm want to introduce digital learning platforms (LMS, micro learning, gamification). Evaluate their usefulness and limitations for managerial capability building. CO4
- c. Evaluate some of the traditional performance appraisal methods with modern methods like 360-degree feedback, BARS, and assessment centers. Recommend the best method for leadership roles. CO5, CO6

Section B

Q4. Case Study

(40 Marks)

MBA (Trimester-II) Regular Examination February 2026

Case: Tata Consultancy Services (TCS) — Managing Talent, Performance, and Retention in the Hybrid Era

Tata Consultancy Services (TCS) is one of India's largest IT services companies with a global workforce across delivery centers and client locations. In recent years, the company has faced complex HR challenges due to the rise of hybrid work models, rapid digital transformation, and intense competition for skilled talent.

TCS has historically relied on strong internal systems for recruitment, training, and workforce deployment. However, the current environment has created new problems:

- Skill gaps are growing rapidly in AI, cloud, cybersecurity, and analytics.
- Attrition has increased, especially among employees with 2–6 years of experience.
- Managers report difficulty in monitoring performance fairly when teams work remotely.
- Employees increasingly demand flexibility, meaningful work, faster career progression, and better well-being support.
- HR leadership is under pressure to control compensation costs while still being competitive.
- The organization wants to use HR analytics for decision-making, but there are concerns about fairness, bias, and transparency.

TCS has invested heavily in learning and development through structured training programs and digital learning platforms. Yet, internal feedback suggests that many employees see training as “mandatory compliance” rather than career-building. Meanwhile, performance ratings are being questioned for lack of consistency across teams.

TCS leadership wants an integrated HR strategy that balances: business performance, employee well-being, fairness, retention, and capability building. Assume you are an HR consultant hired by TCS to propose solutions.

Q4 Case Questions (Answer ALL) (10 Marks each)

a. Diagnose the HR problems in this case. Identify any four major issues and explain their root causes using HRM concepts. CO1, CO3

b. Design an HR planning + staffing strategy for emerging digital roles. Your answer must include: CO6

- forecasting approach
- internal mobility/succession planning
- recruitment + selection method(s)

c. Propose a training and development solution that ensures reskilling at scale. Recommend training methods (on-the-job + off-the-job + digital tools) and explain how training effectiveness should be evaluated. CO6

MBA (Trimester-II) Regular Examination February 2026

d. Recommend a performance + compensation strategy suitable for hybrid work. Your answer must include: CO5, CO6

- one modern performance tool (360, BARS, assessment centre, MBO, or AI-driven tool)
- one retention-oriented compensation/benefit intervention
- one employee well-being/EAP intervention
