OR

b. The following table shows the number of students enrolled in different streams in a university over two years. Draw a suitable diagram to compare enrolment in different streams for the two years. (CO4)

Stream	2025	2026
Arts	520	610
Commerce	480	560
Science	450	530
Management	300	420
Computer Sci.	350	500

Term Evaluation Theory (Even) Semester Regular Examination February 2026

Q4.

(10 Marks)

- a. Describe the concept of classification in statistics. Also explain the principal methods of classifying data. (CO1)

OR

- b. Discuss the concept of sampling? Critically examine any two well-known methods of probability sampling and non-probability sampling. (CO2)

Q5.

(10 Marks)

- a. Using the following frequency distribution, prepare a histogram and also plot the corresponding frequency polygon: (CO4)

Class Intervals:	10-20	20-30	30-40	40-50	50-60	60-70
Frequencies:	5	9	16	14	8	3

OR

- b. The following table shows the distribution of marks obtained by 80 students in a test: (CO4)

Marks	Number of Students
0-10	5
10-20	9
20-30	12
30-40	18
40-50	16
50-60	10
60-70	6
70-80	4

- i. Draw the 'less than' and 'more than' ogives and locate the Median graphically.
ii. Draw a histogram and locate the Mode graphically.
