Q1. (10 Marks)

a. What is **Strategic Management**? Briefly explain its scope. CO1

OR

b. Discuss any five benefits of strategic management to an organization. CO1

Q2. (10 Marks)

a. Explain the different approaches to strategic management. CO2

OR

b. What do you understand by strategic change? Mention any two reasons for it. CO2

Q3. (You can take logical assumptions, if required) (10 Marks)

a. **Fresh Sip Dairy** is a local dairy firm supplying fresh milk in nearby towns. It has a loyal customer base due to good quality and timely delivery. However, it faces competition from large national dairy brands and rising input costs. Growing demand for organic dairy products and government support for dairy enterprises provide growth opportunities. Prepare a **SWOT analysis** for Fresh Sip Dairy. CO3

OR

b. **Green Cart Retail** is a mid-sized supermarket chain operating in urban areas. Recently, the company has noticed changes in government regulations related to plastic packaging, rising competition from online grocery platforms, increasing price sensitivity among customers, and rapid adoption of digital payment systems. At the same time, growing awareness about sustainable consumption is influencing customer buying behaviour. Analyze the **business environment** of Green Cart Retail using **environmental analysis**. CO3

Q4. (10 Marks)

a. Define **strategic leadership**. How does it influence decision-making? CO2

OR

b. What are the major risks involved in strategic management? CO2

Q5. (10 Marks)

a. "A company increases profits by ignoring environmental standards, affecting local communities". Using **stakeholder theory**, explain why this strategy may not be sustainable. CO4

OR

b. "A non-profit organization sets multiple goals to satisfy donors, employees, and beneficiaries". How does this situation reflect **Cyert and March's Behavioural Theory** and the objectives of non-profit organizations? CO4
