

End Term (Odd) Semester Examination November 2025

Roll no.....

Name of the Course and semester: BHM 1ST SEM

Name of the Paper: Food Production Foundation I

Paper Code: BHM 101

Time: 3 hour

Maximum Marks: 100

Note:

- (i) All the questions are compulsory.
- (ii) Answer any two sub questions from a, b and c in each main question.
- (iii) Total marks for each question is 20 (twenty).
- (iv) Each sub-question carries 10 marks.

Q1.

(2X10=20 Marks)

- a. Describe the historical progression leading to modern cookery. How have changes in culinary trends and kitchen organization influenced present-day hotel kitchens? (CO1)
- b. Discuss in detail the classical kitchen brigade system. Compare it with the modern staffing pattern followed in contemporary hotels? (CO1)
- c. Explain the importance of hygiene and coordination in a professional kitchen. How do personal hygiene, protective clothing, and inter-departmental coordination contribute to kitchen efficiency? (CO1)

Q2.

(2X10=20 Marks)

- a. Classify kitchen equipment into hand tools, small utensils, and heavy equipment. Discuss their usage, upkeep, and storage with suitable examples? (CO2)
- b. Describe the various types of fuels used in commercial kitchens. Discuss their advantages, disadvantages, and safety precautions while handling them? (CO2)
- c. Explain the importance of kitchen safety and first aid. How should burns, cuts, and fire emergencies be handled in a professional kitchen environment? (CO2)

Q3.

(2X10=20 Marks)

- a. Explain the principles of heat transfer in cooking. How do conduction, convection, radiation, and induction differ in terms of application and efficiency? (CO3)
- b. Discuss in detail the various methods of cooking—moist heat, dry heat, and combination methods—with suitable examples of dishes prepared by each method? (CO3)
- c. What is mise-en-place? Explain the importance of vegetable cuts and pre-preparation in ensuring consistency and quality in food production? (CO3)

Q4.

(2X10=20 Marks)

- a. Describe the role of herbs, spices, oils, and flavoring agents in cookery. How do they enhance the natural flavor of a dish? (CO4)
- b. Explain the classification and importance of key ingredients used in cooking such as cereals, pulses, fruits, vegetables, fats, and sweeteners. (CO4)
- c. Discuss various thickening and binding agents used in cooking. How do eggs, milk, and leavening agents contribute to texture and structure in dishes? (CO4)

Q5.

(2X10=20 Marks)

- a. Define menu and explain different types of menus used in the food service industry. How does menu planning affect kitchen operations? (CO5)
- b. What are standard recipes? Discuss the importance of standardization, accuracy in measurement, and conversion of weights and volumes in recipe development. (CO5)
- c. Explain the preparation and classification of stocks, sauces, and soups. Discuss the characteristics of a good stock and the derivatives of mother sauces with examples. (CO5)
