

End Term (Even) Semester Examination May-June 2025

Roll no.....

Name of the Program and semester: BHM II Sem

Name of the Course: Environment Science

Course Code: BHM 207

Time: 3 hour

Maximum Marks: 100

Note:

- (i) All the questions are compulsory.
- (ii) Answer any two sub questions from a, b and c in each main question.
- (iii) Total marks for each question is 20 (twenty).
- (iv) Each sub-question carries 10 marks.

Q1. (2X10=20 Marks)

- a. Define air pollution and discuss the major air quality and emission standards. CO4
- b. Describe the key features and impacts of White, Blue, and Green Revolutions. CO3
- c. Evaluate the long-term environmental effects of global warming and climate change. CO5

Q2. (2X10=20 Marks)

- a. Examine the relationship between population growth, resource consumption, and environmental degradation. CO2
- b. Explain the impact of human activities on natural resources. CO3
- c. Analyze the causes and consequences of water pollution in lakes and reservoirs. CO4

Q3. (2X10=20 Marks)

- a. Describe how recycling can help in sustainable natural resource management. CO3
- b. Analyze the environmental impact of deforestation and industrialization. CO2
- c. Describe the major components of an agroecosystem and explain their interrelationships. CO1

Q4. (2X10=20 Marks)

- a. Evaluate the process of ecosystem development and succession in each habitat. CO2
- b. Examine the environmental consequences of global warming, ozone layer depletion, and acid rain. CO4
- c. Define ecology and explain its scope and importance in environmental studies. CO1

Q5. (2X10=20 Marks)

- a. Explain the interactions between the atmosphere, hydrosphere, and lithosphere. CO2
- b. Apply knowledge of pollution control to suggest ways to reduce noise in urban areas. CO4
- c. Assess the environmental and societal impacts of climate change and global warming. CO5
