

End Term (ODD) Semester Examination Nov-Dec 2025

Roll no.....

Name of the Program : B.SC ANIMATION AND GMING / UX/UI / BFA / B.DESIGN FASHION DESIGN
Semester : 1st

Name of the Course : Design Thinking

Course Code: FCT102

Time: 3 hour

Maximum Marks: 100

Note:

- (i) All the questions are compulsory.
- (ii) Answer any two sub questions from a, b and c in each main question.
- (iii) Total marks for each question is 20 (twenty).
- (iv) Each sub-question carries 10 marks.

Q1. CO1 (2X10=20Marks)

- a. Explain the importance of empathy in understanding user needs and shaping meaningful design solutions.
- b. Identify and describe two methods of building empathy in the design process, and explain how they improve user understanding.
- c. Mention one real-world example where empathy led to a successful design outcome.

Q2. CO2 (2X10=20Marks)

- a. What is design-research and explain the importance of design research?
- b. Briefly explain why Design Thinking is considered a human-centered and iterative process.
- c. Discuss the concept of Design Thinking in detail, highlighting its key stages and applications with suitable examples.

Q3. CO3 (2X10=20Marks)

- a. Define the following terms:

- 1. Creativity
- 2. Design
- 3. Innovation

- b. Define the Ideate phase in Design Thinking. Discuss its role in transforming user insights into innovative solutions.
- c. State two creative thinking techniques used during the ideation phase.

End Term (ODD) Semester Examination Nov-Dec 2025

Q4. CO4 (2X10=20Marks)

- a. What is prototyping? Explain the different types of prototypes, methods of usability testing, and how feedback is used to make improvements in the design process.
- b. Why is feedback essential in the design process? Discuss how designers collect, evaluate, and incorporate feedback to refine a prototype.
- d. Differentiate between a problem statement and a design brief.

Q5.CO5 (2X10=20Marks)

- a. Explain one example of how testing with users can lead to better product refinement?
- b. Why is it important to review and improve a design again and again? Provide examples to support your answer.
- d. Discuss how feedback and evaluation contribute to improving a design prototype in iterative cycles?
